

Elemental Analysis of Heavy Metals in Cannabis Seminar

Scheduled: Wednesday, September 15 2021

Time: 10:10 - 11:10AM EDT

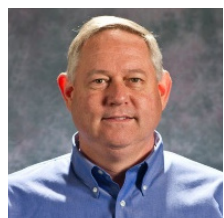

CANNABIS
SCIENCE
CONFERENCE

Glass Expansion is pleased to announce that we have partnered with CEM and Shimadzu Scientific Instruments to offer **Heavy Metals & ICP-MS** within the Elemental Analysis session at Cannabis Science East 2021.

Our Hot Topic Fast Track session will feature three 20-minute presentations with a Q&A session at the conclusion. We will hear from Bob Lockerman (Global Analytical Product Manager, CEM), Ryan Brennan (President, Glass Expansion, Inc.), and Jonathan Peters (Elemental Spectroscopy Product Manager, Shimadzu Scientific Instruments). This is a great opportunity to learn about tools, technological advancements, best practices and tips in heavy-metal testing in cannabis.

ELEMENTAL ANALYSIS OF HEAVY METALS IN CANNABIS SEMINAR SCHEDULE

10:10 - 10:30AM

Bob Lockerman,
CEM Corporation

Rapid, Efficient, and Safe Sample Preparation of Mixed Cannabis Samples in a Single Microwave Digestion Batch.

10:30 - 10:50AM

Ryan Brennan,
Glass Expansion

Simple, Low-Cost Solutions to Improve Throughput in Heavy Metals Testing by ICP-MS.

10:50 - 11:10AM

Jonathan Peters,
Shimadzu

Heavy Metals Analysis of Sample Matrix Varieties via ICPMS – A Streamlined Approach.
